

SISI * AMS2 USER MANUAL * RELEASE 10.0

A1122 * CROSS REFERENCE INQUIRY

This program allows you to see what styles are cross referenced to a fabric and what fabrics are cross referenced to styles. The Style Master, Fabric Master and Style Cross Reference must be valid before you are able to inquire in this program.

Date Base: AMS2 Data Sets: Styles, XREF, Fabric

Run instructions: **A1122.PUB.AMS2** or **A A1122**

This program will display:

Enter 'S' (style) or 'F' (fabric):

When style is selected this screen will display

Fabric Code, Color and yield.

When fabric is selected the screen will show

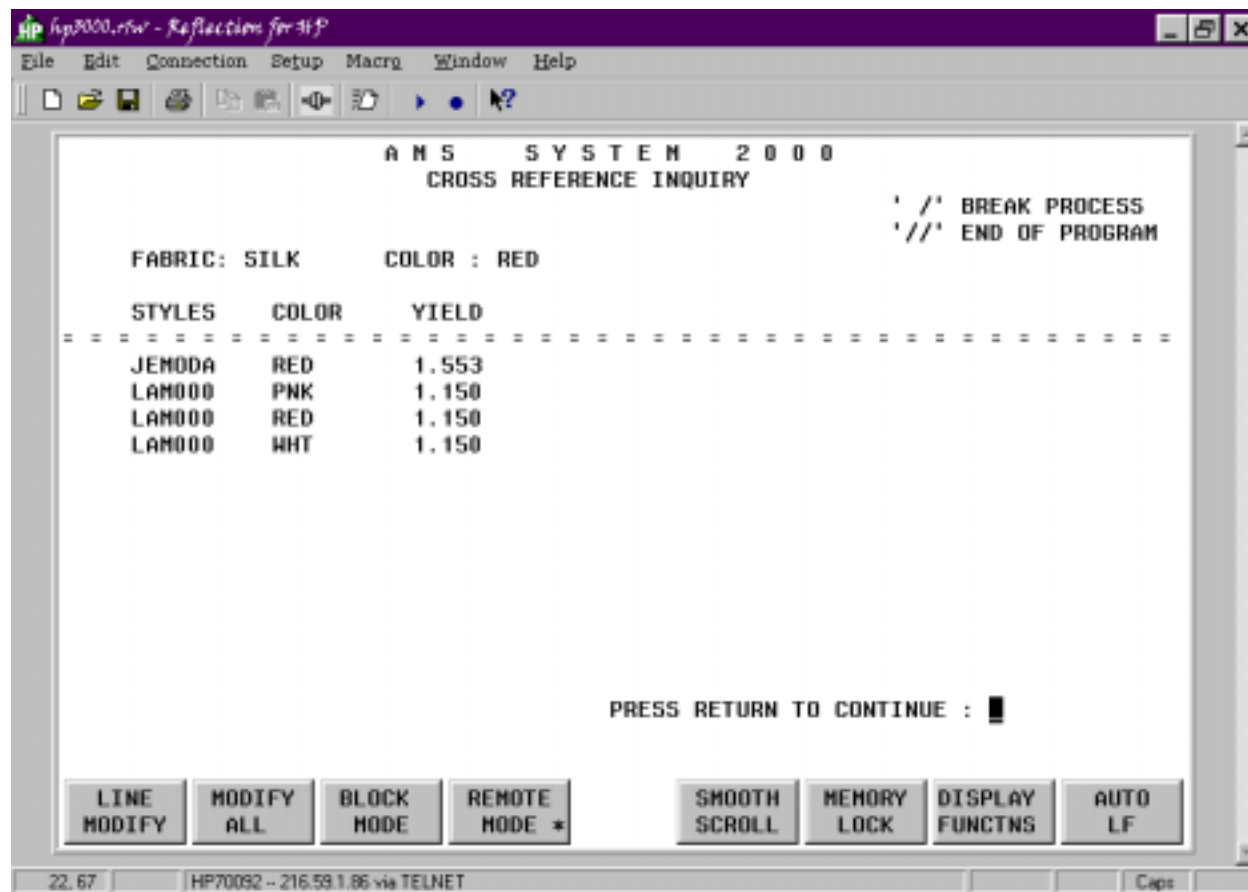

Style, Color and yield.

To change from style inquiry to fabric inquiry type the / key once (break process).

To end the program type // twice (end of program).

Sample screen attached.
