A1180 * Finished Goods Inventory Update

This program will modify your finished goods inventory.
Data Base: AMS2   Data Set: STYLES

FUNCTION KEYS

I	Inquire
U	Update
//	End

INQUIRY FUNCTION

The program asks:

RUN TYPE? - I,U,//

You now have the choice to "I" inquire, "U" update,
or "//" end program.

Type in "I". The program asks:

WHAT IS STYLE/CLR?

Type in the style number and color code.

```
                                                STYLE   CLR
(Remember spacing:              STYLE/CLR - / ---- / ---/*----
```
Hit return
The program displays the inventory quantities by
size for that style. Press the return key to continue.

After each inquiry - you must type in I or U for function.

To end the program, type double slashes (//).

UPDATE FUNCTION

Type "U" for update.

The program asks:

WHAT STYLE/CLR?
Type in the style and color code. (Remember spacing.)

A1180 * FINISHED GOODS INVENTORY UPDATE

The program displays the inventory quantities for the
first of the twelve size blocks and

      ENTER NEW VALUE ------ (press RETURN)

If you do not have a new value for a particular size,
press "return" and the old value will be retained.

Continue through all twelve sizes. When last value
is entered, the prompt will return to run type? function. You can now inquire or update on another style/color.

To exit the program, type double slashes (//).

Please do not use without calling your CSR.

Sample Screen, "Finished Goods Maintenance (A1180)" is attached.
