S I S I * AMS2 USER MANUAL * RELEASE 10.0

A1500 * MULTIPLE PRICE MAINTENANCE

This program is for the multiple pricing system. This is an on-line program that maintains the style/cust-xref. This data set holds the price per style/clr per customer/pay-from. By option A2000 order entry will bring this price to the screen.
Data Bases: AMS2, NABASE, STXREF

Data Sets: Style/Cust-XREF, NA, Styles

OPTIONS

1340	Additional charge (SL13) field (custom)
1341	Use pay-from instead of cust-no
1510	Display stock-no in descr-2 (custom)

FUNCTIONS

F1	Add a record
F2	Change a record
F3	Delete a record
F4	Inquire on a record
F5	Not used
F6	Clear screen
F7	Errors
F8	End of program

F1   **Add a record**   **Key** in style/clr , cust no (or pay from) and unit price. All fields will be validated and an error message will show on screen for invalid entry. Error messages are listed below.

F2   **Change a record**   This function allows you to change the price. To get the record, fill-in the style, color and cust-no fields and press enter. Change the price and then press enter.

F3   **Delete a record**   This allows you to delete a record. Fill-in the style, color, cust-no for the record you want to delete. The record will show on the screen. You can go ahead and delete the record by pressing F3 or ignore itby pressing other than F3

F4   **Inquire on a record**   To inquire on a record, you must fill-in the style, color and cust-no fields and press enter.

F6   **Clear the screen**   This function is when you want to shift to another function. It clears the screen and initializes the buffer.

F7   **Get error**   This function works together with function F1. By pressing F7, it shows all the error found during editing.

F8   **End of program**   This is to terminate the program.
